To whom this may concern,

I am an interactive designer from Spokane Washington. I have extensive experience doing internships for local agencies as well as freelance projects. This experience has prepared me for a job as an interactive designer. I am a soon to be graduate of the Spokane Falls Community College Graphic Design program. I have worked with national clients such as The Hallmark Channel, Toyota, Slim Jim, and University of Phoenix.

I am a highly motivated individual who has had excellent mentorship and gained from every opportunity that I have taken on. In my experience I have learned the importance of team work and the value of having good leadership. I welcome the opportunity to work and learn from those in the field to enhance my knowledge. I believe the blending of my artistic talents, computer knowledge, and positive attitude makes me an important asset to any company looking for creative design.

Sincerely,

“

A designer knows he has achieved perfection not when there is nothing left to add, but when there is nothing left to take away.

. Antoine de Saint-Exupéry
